material for you to make your own..... p.o.a.

**UK customers add VAT to all prices**

**TRIED & TESTED....** Not only have we been selling these parts for many years, with customers all around the world, many of the parts are also used on our own championship winning Nortons.

Whilst we ensure that our parts are made to the highest standards, as the fitment and use are outside our control, and as use for racing is likely to ultimately result in failure, we can accept no liability whatsoever for damage arising from such failure. This is a condition of our business which you are deemed to have accepted upon purchasing parts from us. However, if on receipt of goods purchased from Molnar Precision Ltd. you are not totally satisfied with the quality of workmanship we will be happy to supply replacements or refund any monies paid.

**DELIVERY....** We try to keep all parts for hub assemblies in stock and make up complete units to order. This means that delivery will usually be 8 weeks from receipt of your written order, although you are advised to contact us to check the exact delivery forecast on the hub you choose.

We require £100.00 deposit with all hub orders, the balance is payable when ready for despatch. Hub assemblies are despatched by Fed Ex / UPS worldwide on a fully trackable and insured courier service.

**PERSONAL CALLERS....**This is an engineering shop & mail order operation, personal callers can only be accommodated by prior appointment.
